

PARK SAFE

In the interests of safety, the Sports Park Management ask for your support in minimising vehicle congestion in and around the Sport Park. To help with the parking congestion at weekends, Fugro has kindly given permission to the Sports Park Users, to park their vehicles in designated areas on their site, next to the Sports Park on all Saturdays and Sundays only - a total of 175 parking spaces. (See map below for designated area)

The Sports Park Users can also help by:

- Always park their vehicles in designated areas, keeping access routes for emergency vehicles clear. Park sensibly with consideration of other Sports Park Users.
- When the Sports Park car park is full, please use the designated areas in the near-by Fugro car park and not on the grass verges surrounding the Sports Park.
- On busy match days at the Park, Captains of teams playing away from home use Fugro as a meeting place for his/her team. Any spare vehicles not taken to the venue should be left in Fugro car park.
- Clubs to encourage car sharing amongst its members.
- Drop off at the Sports Park and park at Fugro's.
- Where possible, cycle to the Sports Park and use the bicycle shelter recently provided.
- Visit the Sports Park website - Travel Plan to see what steps are being taken to resolve the parking problems. www.wallingfordsportspark.co.uk
